Editor P. Soltys soltydog@yahoo.com \*\*please note new email \*\*

Could I please have items for next Parish News  
to Paul by 20th March please

## The Parishes of Aldbrough Mappleton & Goxhill with Great Hatfield & Withernwick

March  
2018

*I will pour  
out water on  
the thirsty land  
and streams on  
the dry ground.  
Isaiah 44:3*

*From The Vicar March 2018*

A Sunday school teacher asked her class, 'Can anyone tell me what you must do before you can obtain forgiveness of sin?' One small boy spoke up, 'Sin'!

By now we are well and truly into Lent – a time when we are asked to look at our lives in more detail and ask some important and often uncomfortable questions about ourselves and our relationship with God.

Lent began with a reflection on Jesus' temptations in the wilderness – it ends of course with the events of Holy Week and his crucifixion. Despite the fact that our world is different to that of the New Testament we are still called to treat people as Jesus did and to stand up for the values he embraced at all times. Jesus faced many of the same powers of darkness that we face and yet, strengthened by God, he emerges victorious. We are not alone as we walk in the way of the cross.

There is of course one bright spot in the middle of Lent – Mothering Sunday and I hope to see many of you at Mappleton on that day. Often this is referred to as Mother's Day (an Americanism) and is about a particular person – a mother. Mothering Sunday on the other hand is about a quality which we recognise in others who may or may not be our mothers.

'Mothering' means caring deeply, sustaining, supporting, whatever the cost. That is why God, whom we usually call 'Father', is sometimes spoken of in the Bible as 'mothering' us, gathering us in His arms of love, even feeding us like a mother. On Mothering Sunday we celebrate so much more than our own mums. We celebrate the whole glorious notion of care, compassion and nurture.

Mothering Sunday is also a reminder that Easter isn't far off – April 1st this year!!

With every blessing.

*Revd Anne*

### **Good news for St Alban's**

We have the first visible sign of positive progress on the church roof. The refurbished weathercock has appeared on top of the bellcote - a beautiful golden cockerel with new N,E,S,W vanes. He really shines in the sunshine and even brightens up the sky when it rains.

Anne Wood

### **'The smoke of the day' by John Phillips**

Heed you the prophets, believe you the word  
Know that the Christ will return  
Know that he's coming in splendour and power  
Know that his judgement will burn.  
Once for our sins he was nailed to a cross  
Our Life and our Truth and our Way  
And all who accept him and call on his name  
Will be saved from the smoke of the day.

Scoffers and cynics, with scales on your eyes  
On science and proofs you rely  
Your intellect blinds you to all that is real  
The ultimate truth you deny.  
Slaves to ambition in castles and towers  
With corporate dreams of today  
All your self-serving visions of money and power  
Will be lost in the smoke of the day.

Run to the caves and the crags and the rocks  
Pray for the mountains to fall  
As you hide from the face of the one who returns  
The one who is King over all.  
The godless illusions you've followed and served  
Lie shattered, the price is to pay  
As the idols you've worshipped, the lies you've believed  
Turn to ash in the smoke of the day.

Cry for forgiveness, repent and survive  
Know your redeemer will come  
Accept the free grace which is entered through faith  
By all who believe in the Son.  
Turn from your sins and be cleansed by his blood  
Hasten, do not delay  
When the last trumpet sounds and the Christ stands revealed  
You'll be judged in the smoke of the day.

### **ALDBROUGH ARCHIVES EVENING: May 12th**

There will be a display of old photos of the village and an opportunity to look at the old registers. If you have any photos of past village or church events and would be prepared to have these on display please speak to either Mrs Kath Moore or Mrs Christine Longstaff.

## Aldbrough WI

The February meeting was held on the 5th and was attended by 16 members. We were pleased to welcome our guest speaker Margaret Knapton who told us about the important work carried out by the Fair Trade Organisation in poorer countries and how their input enabled farmers to obtain a fairer price for their produce, thus enabling them to support their families. A selection of items were available to purchase at very good prices. A VOT was given by Susan Ulph.

Future events arranged by the East Yorkshire Federation were discussed and 6 members booked to attend an afternoon CentTEAnery party in May in celebration of women attaining the right to vote in 1918., the event is to be held at All Saints Community Centre in South Cave.

Several members also booked places on a mystery trip and an outing to Hull New Theatre later in the year.

Positive comments were received from all 15 who had attended the meal at Swiss Cottage in Hornsea, the food, surroundings and service were all first class, with a lovely log fire to keep us warm on a cold January evening.

News of the return of the Scarecrow Competition in July was welcomed and ideas for our own entry will be discussed in due course.

The March meeting to be held on the 5th which was planned by the members as a way of thanking the Committee for their work throughout the year was arranged.

Visitors and new members are always welcome, for more details please contact Janice on 01964 529579 or Angela on 01964 529055.

**Waders** - Oystercatchers are very easily identified, with the pale pink legs & flight a white v rump and broad white wing bars. They like to feed on mudflats and damp fields. 13,000 breed in the UK & they are a very common winter visitor (340,000), Turnstones they are widespread & common locally, 50,000 come to our shores August to May time, they are blackish with a white chest & belly with bright orange legs. They mainly feed on Estuaries' sandy/stoney beaches. Their voice is a fast clipped "kew-tuk -tuk" if flushed out from cover or in danger.

Now the Avocet, adults are bright white, a curved black bands around white oval patch on closed wings and a unique upswept bill. It feeds in shallow water with regular sideswipes of it's beak on shallow lakes & estuaries.

Now the Dunlin, it's about the size of starling, with a long tapered bill to a downcurved tip. Food is picked up by a probing action, and runs quickly. Quite scarce and local breeders (9,000 pairs) June to July, but winter the numbers swell to 390,000. Like the rest of the waders, it feeds on mud flats & it nests on moors/hills up in North Yorks  
 God bless Revd Anne. and all who read this John

## WLG February 2018 Newsletter

This meeting was the AGM and 13 members attended.

### Agenda

### Points of Interest

#### Did you know we can hear better with our Right Ears?

This is due to the sound entering the right ear being processed by the left side of the brain which controls speech and language development. Therefore we retain and understand information better if we listen primarily with our right ears. So say the researchers at Auburn University Alabama.

#### Did you know that Dogs maybe smarter than cats?

Research in America has found that Dogs have many more neurons in their cerebral cortex than cats, a sign that they are more capable of thinking, planning and other complex behaviours.

#### Did you know?

351 is the number of bacteria species harboured by house flies.

49 is the number of genes that contribute to whether your earlobes are attached or free.
